

**The Thames River Basin Partnership  
Floating Workshop XI  
Friday, June 24, 2011  
Will be Launching at Webster Lake  
12:30 PM – 4:30 PM**

*Featuring the French River*

Registration is now open for the 11th annual Thames River Basin Partnership Floating Workshop. Registration will begin at 12:30 PM with light refreshments at Point Breeze Restaurant, located at 114 Point Breeze in Webster, MA. The program will begin at 1 PM.

The French River is one of the nine regional river systems that are part of the upper Thames River Watershed. The river once powered Samuel Slater’s mills. Learn its history and about the many volunteer efforts to change the perception of the river as a waste receiver, and of the many recreational opportunities in the watershed

As the name of the workshop implies, it includes an on-water field component. We will be boarding power boats supplied by the Webster Lake Association and others for a tour of the lake and a demonstration of various water quality monitoring techniques. Please bring your own life vest if you have one. Various other speakers will fill out the afternoon.

You can plan to come early for lunch, or stay late for an early dinner or cocktails (for an additional cost) on the deck overlooking this beautiful lake.

For more information, call Jean Pillo at 860-928-4948 or email at Jean.Pillo@ConserveCT.org.

This workshop is being co-sponsored by the Webster Lake Association and is funded in part by The Last Green Valley.

The cost of this year’s Floating Workshop is \$20. Please make your check payable to the **Eastern Connecticut Conservation District**, and mail it by June 15 with the completed registration form below to:

**TRBP Floating Workshop, c/o ECCD, 238 West Town Street, Norwich CT 06360**
